

Organizing Field Day on farmer's field –KISAN-Bio-tec hub under BDT Project

One field day programme on “Good Agriculture Practices of vegetable cluster bean” was organized at farmers' field of Chandan village of Jaisalmer district under DBT funded project “Establishing of Biotech –KISAN Hub (Western Dry region's Aspirational districts of Sirohi and Jaisalmer) on 18th September 2024. The field visit was conducted at field of Sh. Chutar Singh and Sh. Suresh where vegetable cluster bean has been demonstrated. During field day, Dr. R.S. Mehta, Head, CAZRI RRS, Jaisalmer welcomed the farmers and emphasized on good agriculture practices for quality production. Dr. S.C. Meena explained about integrated pest management in vegetable cluster bean with emphases on biological pest control. Dr. Dileep Kumar explained economics and marketing of vegetable cluster bean. Dr. Anil Patidar coordinated the programme and explains about different varieties of vegetable cluster bean and seed production. During the field day, the input like yellow sticky trap was distributed to demonstrated farmers for management of insect pest in cluster bean. Farmers were advised to harvest pods of vegetable cluster bean at proper stage for fetching the better price in market.
