

Sprayer distribution-cum off-campus training under SCSP

A sprayer distribution-cum off-campus training program was organized under SCSP in Keru village near Jodhpur on 16.12.21. The program was organized at one of the beneficiary's farm. About 35 scheduled caste farmers attended the program. First of all 30 battery operated sprayers were distributed amongst 30 farmers who were having irrigation facility. The operation of the battery-operated sprayers, its charging time, use of spare parts etc. was demonstrated to the participating farmers. The dozes of different insecticides, fungicides to be used for the control of various pest and diseases were explained to the farmers. The precaution to be used while spraying pesticides, wind direction, proper concentration of pesticides and appropriate technique of spraying was also explained to the trainees. Although, the sprayers were distributed to 30 farmers in entire village but we advised the farmers to share the sprayers with other farmers also for full utilization of the machine. At the end farmers thanked the CAZRI for running the SCSP program in their village and assures us full cooperation in futures program as well.
